Solid American Oak

Wood is a natural material so each piece will be unique, telling a different story of the condition it grew in. There will be colour and grain variation.

Care:

Enhance the longevity and natural beauty of your timber by regularly dusting it and using cleaning products specifically designed for use on wood. To keep your timber looking its best, protect it from direct heat sources and sudden temperature changes, and swiftly clean up any spills or condensation to prevent excessive moisture exposure. Over time, the colour of real wood may naturally change, and exposure to UV light may accelerate this process.

Comes fully assembled.
