Care:

Timber:

Enhance the longevity and natural beauty of the timber by regularly dusting it and using cleaning products specifically designed for use on wood. Protect the wood from direct heat sources, sudden temperature changes, and prevent excessive moisture exposure. Over time, the colour of real wood may naturally change, and exposure to UV light may accelerate this process.

Fabric:

Fabric protector sprays will limit stain absorption and should be reapplied after cleaning or every 6 months. Mud or dirt is best left to dry then vacuumed.
